EDUCATION

DMCE

First Year

- Sem 1:-7.78
- Sem 2:-8.30

Second Year

- Sem 3:-7.65
- sem 4:-7.65

Third Year

- Sem 5:-8.09

SKILLS

- Software Development
- Web-Development
- Database Management

PROGRAMMING LANGUAGES

- JAVA
- PYTHON
- MY-Sql
- MERN STACK
- Machine Learning
- Data Science

PROFILE

Ambitious and solutions-driven engineering student with a strong foundation in Data Science, Machine Learning, and Software Development. Proven ability to apply AI/ML techniques to real-world problems through hands-on projects. Demonstrates strong analytical thinking, effective teamwork, and a passion for innovation and continuous learning.

PROJECT EXPERIENCE IN (D.M.C.E)

Chatting application (JAVA And MySQL Project)

Work:-Backend-MySQL

FIRST YEAR

- Our application enables communication between two entities or clients within the same network using socket programming.
- Two entity in same network can communicate by using our application by sending request between two clients.
- Each client's data is securely stored on their own devices using MySQL, ensuring privacy and control over their information.

Copyright Dection System (Python And computer visoin)

Work:-developed a full-stack Copyright Detection

SECOND YEAR

- Developed a Machine Learning-based Copyright Detection System
- identify copyrighted or watermarked images using computer vision techniques (YOLO/Faster R-CNN)
- Trained on datasets like Google Open Images and manually watermarked samples.

MediaFreeZone

Work:-Backend (NodeJs and MongoDB)

THIRD YEAR

- A Web Application using the MERN stack for providing
- Enables Users to Discover, Manage, and Share Non-Copyrighted Content.
- It Combines Efficient Data Handling with an Interactive, User-Friendly

CERTIFICATIONS/ INTERNSHIPS

- Machine Learning Specialization - Coursera
- Advance Java - RKDEMY
- SIH (Smart India Hackathon) Finalist
